

Response Template for the Invitation to Comment Before the IAASB Finalizes the Narrow Scope Amendments to the ISQMs and ISAs for the IAASB PIE Track 2 Project

Guide for Respondents

Comments are requested by **March 27, 2025**.

This template is for providing comments on the matters set out in the Invitation to Comment (ITC) for the pre-final narrow scope amendments to the International Standards on Quality Management (ISQMs) and the International Standards on Auditing (ISAs) as a Result of the Revisions to the Definitions of Listed Entity and Public Interest Entity (PIE) in the IESBA Code. It also allows for respondent details, demographics and other comments to be provided. Use of the template will facilitate the IAASB's automated collation of the responses.

You may respond to all questions or only selected questions.

To assist our consideration of your comments, please:

- For each question, start by indicating your overall response using the drop-down menu under each question. Then below that include any detailed comments, as indicated.
- When providing comments:
 - Respond directly to the questions.
 - Provide the rationale for your answers. If you disagree with the proposals as explained in the ITC, please provide specific reasons for your disagreement. If you agree with the proposals, it will be helpful for the IAASB to be made aware of this view.
 - Avoid inserting tables or text boxes in the template when providing your responses to the questions because this will complicate the automated collation of the responses.
- Submit your comments, using the response template only, without a covering letter or any summary of your key issues, instead identify any key issues, as far as possible, in your responses to the questions.

The response template provides the opportunity to provide details about your organization and, should you choose to do so, any other matters not raised in specific questions that you wish to place on the public record. All responses will be considered a matter of public record and will ultimately be posted on the IAASB website.

Use the “**Submit Comment**” button on the IAASB [web page](#) to upload the completed template.

Should you choose to do so, you may include information about your organization (or yourself, as applicable).	The BAOA is responsible for providing oversight to accounting and auditing services and promotion of the standard, quality, and credibility of providing financial and non-financial information by entities, including Public Interest Entities (PIEs). This is attained through standard setting, financial reporting monitoring, audit practice reviews, corporate governance reviews, enforcement of compliance and oversight over Professional Accounting Organizations, and education and training of professional accountants in Botswana.

Should you choose to do so, you may provide overall views or additional background to your submission. **Please note that this is optional.** The IAASB's preference is that you incorporate all your views in your comments to the questions.

Information, if any, not already included in responding to the questions in Part B:

PART B: Responses to Specific Questions in the ITC

For each question, please start with your overall response by selecting one of the items in the drop-down list under the question. Provide your detailed comments, if any, below as indicated.

1. You are invited to share any observations that you believe might be relevant to the IAASB prior to finalizing the narrow scope amendments to the ISQMs and ISAs.

Please note:

- This ITC does not extend to and is not inviting comment on the IESBA PIE revisions read together with the IESBA clarification. IESBA's Listed Entity and PIE project is complete.
- If you submitted a comment letter to ED-PIE Track 2 in April 2024, the IAASB has fully considered those responses during its deliberations in September and December 2024; therefore, it is not necessary to repeat comments previously provided. You may believe that a specific matter remains relevant to share as an observation here, in which case the request is that you please clearly relate such matter to the IAASB's decisions and rationale in this Post-Exposure Consultation. (See **Section IV**, paragraphs 23-32.)

Overall response: [Concur and wish to share the following observations](#)

Detailed comments (if any): The IAASB should consider deferring the finalization of the amendments until the post implementation review by IESBA in 2027.

Specific questions on forward-looking matters (See ITC **Section V**):

- 2(a). Do you agree with the proposed effective date of the narrow scope amendments, i.e., for audits of financial statements for periods beginning on or after December 15, 2026, to be aligned with the standards from the Going Concern and Fraud projects? (See **Section V**, paragraphs 35-37.)

Overall response: [Disagree, with comments below](#)

Detailed comments (if any): We propose that the IAASB should wait and revisit the proposed effective date after IESBA post implementation review.

2(b). Do you agree with the IAASB’s commitment to revisit the decision to adopt the definition of PIE in the IESBA Code (adapted as necessary for the ISQMs and ISAs) and extending differential requirements to apply to audits of PIEs? (See **Section IV**, paragraph 31 and **Section V**, paragraph 38.)

Please note: When the decision is revisited, the IAASB will develop an exposure draft for public consultation. Therefore, you do not now need to provide comments or to repeat comments previously provided regarding the extant differential requirements in the ISQMs and ISAs.

Overall response: [Agree, with comments below](#)

Detailed comments (if any): The global adoption and implementation of the IESBA PIE definition is still evolving and waiting until there is sufficient maturity in the application will allow for a more informed approach.

2(c). Do you agree with the proposed timing for revising the matters highlighted in 2(b) above? (See **Section V**, paragraphs 39-41.)

Overall response: [Disagree, with comments below](#)

Detailed comments (if any):

While we support the IAASB’s commitment to revisiting the decision to adopt the definition of PIE in the IESBA Code, we believe that the proposed timing of review in the second half of 2026 is too soon/ insufficient to allow the global audit market to have assessed and adapted to the proposed requirements. To ensure a more thorough and informed evaluation, we recommend that the IAASB should consider making amendments to ISAs and ISQMs only after the IESBA post implementation review which is set to commence in 2027. Aligning the IAASB’s review with the IESBA’s timeline would provide a more robust evidence base and allow the IAASB to incorporate key insights from the IESBA’s assessment. This approach would help ensure that the IAASB’s decisions are well-informed by practical challenges, regulatory adoption trends, and implementation experiences across jurisdictions.
