

Response Template for the Invitation to Comment Before the IAASB Finalizes the Narrow Scope Amendments to the ISQMs and ISAs for the IAASB PIE Track 2 Project

Guide for Respondents

Comments are requested by **March 27, 2025**.

This template is for providing comments on the matters set out in the Invitation to Comment (ITC) for the pre-final narrow scope amendments to the International Standards on Quality Management (ISQMs) and the International Standards on Auditing (ISAs) as a Result of the Revisions to the Definitions of Listed Entity and Public Interest Entity (PIE) in the IESBA Code. It also allows for respondent details, demographics and other comments to be provided. Use of the template will facilitate the IAASB's automated collation of the responses.

You may respond to all questions or only selected questions.

To assist our consideration of your comments, please:

- For each question, start by indicating your overall response using the drop-down menu under each question. Then below that include any detailed comments, as indicated.
- When providing comments:
 - Respond directly to the questions.
 - Provide the rationale for your answers. If you disagree with the proposals as explained in the ITC, please provide specific reasons for your disagreement. If you agree with the proposals, it will be helpful for the IAASB to be made aware of this view.
 - Avoid inserting tables or text boxes in the template when providing your responses to the questions because this will complicate the automated collation of the responses.
- Submit your comments, using the response template only, without a covering letter or any summary of your key issues, instead identify any key issues, as far as possible, in your responses to the questions.

The response template provides the opportunity to provide details about your organization and, should you choose to do so, any other matters not raised in specific questions that you wish to place on the public record. All responses will be considered a matter of public record and will ultimately be posted on the IAASB website.

Use the “**Submit Comment**” button on the IAASB [web page](#) to upload the completed template.

PART B: Responses to Specific Questions in the ITC

For each question, please start with your overall response by selecting one of the items in the drop-down list under the question. Provide your detailed comments, if any, below as indicated.

1. You are invited to share any observations that you believe might be relevant to the IAASB prior to finalizing the narrow scope amendments to the ISQMs and ISAs.

Please note:

- *This ITC does not extend to and is not inviting comment on the IESBA PIE revisions read together with the IESBA clarification. IESBA's Listed Entity and PIE project is complete.*
- *If you submitted a comment letter to ED-PIE Track 2 in April 2024, the IAASB has fully considered those responses during its deliberations in September and December 2024; therefore, it is not necessary to repeat comments previously provided. You may believe that a specific matter remains relevant to share as an observation here, in which case the request is that you please clearly relate such matter to the IAASB's decisions and rationale in this Post-Exposure Consultation. (See **Section IV**, paragraphs 23-32.)*

Overall response: [Concur with the IAASB's position and rationale for finalizing the narrow scope amendments \(no further observations\)](#)

Detailed comments (if any):

As the title of this consultation states, this project is about Narrow Scope Amendments as a result of the revisions to the definitions of listed entity and public traded entity in the IESBA Code. Regarding the specific proposed amendments, our concerns still remain regarding paragraph 18 in ISA 260. By deleting the reference to listed entities in the introduction of this paragraph the requirement to provide a written statement to those charge with government has now been broadened to be applied in all audit engagements. We do not support this change. We believe this amendment goes outside the scope of this project and also, we question the need to provide this statement in all audits, including in SME audits.

Specific questions on forward-looking matters (See *ITC Section V*):

- 2(a). Do you agree with the proposed effective date of the narrow scope amendments, i.e., for audits of financial statements for periods beginning on or after December 15, 2026, to be aligned with the standards from the Going Concern and Fraud projects? (See **Section V**, paragraphs 35-37.)

Overall response: [Agree \(with no further comments\)](#)

Detailed comments (if any):

- 2(b). Do you agree with the IAASB's commitment to revisit the decision to adopt the definition of PIE in the IESBA Code (adapted as necessary for the ISQMs and ISAs) and extending differential

requirements to apply to audits of PIEs? (See **Section IV**, paragraph 31 and **Section V**, paragraph 38.)

Please note: *When the decision is revisited, the IAASB will develop an exposure draft for public consultation. Therefore, you do not now need to provide comments or to repeat comments previously provided regarding the extant differential requirements in the ISQMs and ISAs.*

Overall response: [Neither agree/disagree, but see comments below](#)

Detailed comments (if any):

Given the IESBA’s clarification on how their PIE-definition should be applied we believe the IAASB has struck the right balance by proposing to replace listed entities with publicly traded entities and also by adopting IESBA’s definition of such entities.

The rationale for not choosing the PIE-definition is well explained in paragraph 30 in the post-exposure consultation. Those factors will most likely remain at least for a foreseeable future. Therefore, we question the necessity to revisit this matter, at least the timing of such a revisit.

2(c). Do you agree with the proposed timing for revising the matters highlighted in 2(b) above? (See **Section V**, paragraphs 39-41.)

Overall response: [Neither agree/disagree, but see comments below](#)

Detailed comments (if any):

According to the consultation, IAASB staff plans to report back and request the Board for direction in the second half of 2026 about revisiting the decision. If the idea is to revisit the decision when the global adoption and implementation of the definition of PIE in the IESBA Code has sufficiently matured, we question the suggested timing since we believe that would be too soon.
